Customized Art Experiences

These are unique experiences designed specifically for your community which culminates in a completed sculpture. This can take a variety of forms, from private retreats or coming of age ceremonies for small groups, to workshops and festival collaborations. (10 participants max per sculpture).

I have offer two kinds of experiences that both bring people together to create a nature sculpture. One is a full workshop that results in a permanent sculpture. The other one I call a Build and Burn. This experience focuses on creating a sculpture from a purely intuitive place and culminates in the creation of a fire ritual and the burning of the sculpture with the participants.

In both processes participants will:

- Build a nature sculpture from the ground up while learning my personal creative process
- Develop artistic confidence working with natural materials
- Create safely with power tools and hand tools
- Connect deeper with self and nature while strengthening intuitive skills
- End the process with a completed sculpture, professionally photographed
- (in the Build and Burn)

Community Workshop Experience starts at \$5,555 and takes 4-6 days.
Build and Burn Experience starts at \$2,222 and takes 2-3 days.

Artist in Residence

Would you like to host me on your land for a minimum of 4 weeks? A few times each year, I partner with a land-owner over an extended period, producing 1 or more sculptures and outcomes that are unique to the partnership.

I developed this program as a way to facilitate my dream of building goddess sculptures that sanctify land across the globe. It is my intention that this be a mutually beneficial experience, providing for me complete submersion into my creative process in nature and providing you with some beautiful art for your property.

These opportunities can be combined with a Customized Art Experience (as described above) for your community. There is also potential for artist talks and other experiences for your community such as forest walks and forest bathing / meditation.

Pricing starts at \$4,444 and requires comfortable private lodging for myself and one assistant with access to bathroom and kitchen.
